

How to order and complete your lab test at *Labcorp*

Do not pay at Labcorp

If you make an additional payment at the Labcorp office, that money cannot be refunded. Please be careful and simply **present your requisition form** at the time of your blood draw - **no additional payment** is required. Lab tests are only available in the U.S. and **not available in HI, NJ, NY, PR, or RI** — but residents of these states may test in other U.S. states.

Step 1 Place your order

- Go to the Labs section of our website.
- Choose the test or panel that fits your needs.
- Add it to your cart - each test can only be added once.
- A \$10.00 Labcorp blood draw fee and a \$9.50 Labcorp physician fee will be added automatically.
- Review your cart. If the same biomarker appears in both a panel and an individual test, we'll let you know.
- Continue to **Checkout**.
- Enter your payment information.
- Enter the patient details (first name, last name, and email) for the person who will take the test.
- Complete your purchase.

Step 2 After you pay

- Your order will be processed by our partner, Fullscript.
- You'll receive an email from Fullscript with a link to create or access your patient account.
- Once your lab requisition form (your official order) is ready, open **My health → Labs**.
- Find your test and select **View details → View requisition** to download the form.
- You'll need to bring this form to Labcorp, either printed or on your phone.

Step 3 Get ready for your test

- Blood draws are done at Labcorp locations.
- Some tests require fasting. Follow the fasting time listed in your test instructions.
- Some tests may have extra preparation steps. You'll find these in your test instructions.
- The cost of the blood draw is already covered - you don't need to pay anything extra at Labcorp.
- You will not receive an at-home kit - your blood sample must be collected at Labcorp.

Step 4 Schedule your Labcorp appointment

- Wait until your lab requisition form is ready.
- Visit Labcorp's appointment page (<https://www.labcorp.com/patients/labs-and-appointments>).
- Enter your ZIP code or address.
- Choose a Labcorp location near you.
- Select a date and time that works best.
- If asked about payment, indicate that your testing has already been paid for.

Step 5 What to bring to your appointment

- A valid photo ID. Your name must match the information on your Fullscript order.
- Your lab requisition form, printed or saved on your phone.

Step 6 On the day of your test

- A trained phlebotomist at Labcorp will collect your blood sample.
- Your sample will be processed and sent to the lab for testing.

Step 7 Getting your results

- Processing times vary depending on the tests you ordered.
- Your results will appear in your Fullscript account as they become available.
- Open **My health → Labs** and select **View details** next to your test.
- Select **View results** to download your report.
